PRASHANT DEOL

AI Product & Project Manager | LLMs, AI Agents & Agentic Workflows (n8n) | API-Based AI Agents | MERN Stack & Shopify | AI-Assisted Development (Claude Code, Cursor)

9557393301 | prashantdeol03@gmail.com | linkedin.com/in/prashant-deol-521222231 | Delhi, India

SUMMARY

AI-focused Product & Project Manager who builds as well as ships - 4+ years leading B2B/B2C platforms, ERP systems (Accounting, CRM, Helpdesk, Repair Management) and, more recently, agentic AI workflows that automate repeated business operations. Hands-on with AI-assisted development (Claude Code, Cursor), building API-based AI agents, n8n automation, and shipping projects across the MERN stack and Shopify. Combines a builder's technical instinct with structured product execution- PRDs, user research, sprint delivery - to take products from idea to production.

CORE SKILLS

- LLMs & AI Applications, Agentic Workflows (n8n)
- API-Based AI Agents, Backend Systems & APIs
- AI-Assisted Development: Claude Code, Cursor
- PRD & User Story Writing, Roadmapping & Prioritization
- Product Analytics: Mixpanel, GA4, Looker, A/B Testing
- MERN Stack, Shopify, Web & App Development (B2B)
- ERP Systems: Accounting, CRM, Helpdesk, Repair Management
- Automation: Power Query, Google Apps Script, n8n
- Agile/Scrum: Sprint Planning, Backlog Grooming, Standups
- Jira, ClickUp, Figma, SQL, Power BI, Postman

AI & AUTOMATION EXPERIENCE

- Own AI product initiatives end-to-end at Recom Retail -from idea to production -building agentic AI workflows in n8n to automate repeated business operations (lead qualification, support responses, document generation, reporting), cutting manual effort by approximately 60%.
- Build API-based AI agents and internal automation tools, using AI-assisted development workflows (Claude Code, Cursor) to accelerate delivery.
- Designed and built ERP systems -Accounting, CRM, Helpdesk and Repair Management -covering requirements, backend logic and system integration end-to-end.
- Evaluated and piloted Generative AI / LLM tools for internal workflow automation, building the business case and rolling out to production with adoption tracking.
- Hands-on experience across MERN stack and Shopify projects, alongside B2B website and app development taken from idea to launch.

EXPERIENCE

AI Product & Project Manager | Recom Retail Pvt. Ltd., Noida, India *Jul 2024 – Present*

Mobile phone refurbishment company (B2B and C2B)

- Own the AI product roadmap and execution -from idea to production -across B2B, B2C and C2B platforms, translating business goals into shipped features and automation.
- Led website and app development for B2B platforms (partner and warranty portals), managing requirements, design and delivery end-to-end.
- Designed and built ERP systems for Accounting, CRM, Helpdesk and Repair Management -covering workflow design, backend logic and system integration.
- Built agentic AI workflows in n8n and API-based AI agents to automate repeated business operations, using Claude Code and Cursor for AI-assisted development.
- Automated reporting and operational workflows using Power Query, Google Apps Script and n8n, reducing manual effort by approximately 60% while improving accuracy.
- Partnered with engineering on API design, third-party integrations and system architecture for scalable, reliable platforms.
- Ran sprint planning, backlog grooming and cross-functional coordination with engineering, design and vendor teams for on-time delivery.
- Conducted market research and competitor analysis to inform the product and automation roadmap.
- Hands-on experience with MERN stack and Shopify projects, alongside AI product work.
- Owned website content management and CMS updates for B2B partner and warranty portals, ensuring content accuracy, performance and a smooth user experience across releases.
- Applied SEO best practices (on-page optimization, structured content, site performance) to improve search visibility and organic reach for B2B platforms.

- Established data security and compliance practices across ERP and customer-facing systems, safeguarding customer and business data in line with internal and regulatory standards.
- Analyzed user behavior and conversion-funnel data (GA4, Mixpanel) to identify UX improvement opportunities, partnering with design and engineering to implement changes.

Project Manager (Product) | Xtracover Technologies Pvt. Ltd., New Delhi, India *May 2022 – Jul 2024*

Smartphone refurbishing company

- Defined detailed scope of work, user flows and product requirements for B2C, B2B and C2B mobile apps and websites (SellnCash, Compare, Buy portals).
- Designed UI/UX for the SellnCash platform -including the Partner App and Rider App -using wireframes and prototyping informed by user research.
- Ran Scrum ceremonies (daily standups, sprint planning, backlog grooming) using Jira and ClickUp; managed end-to-end delivery from requirement gathering through testing, UAT and release.
- Led the diagnostic application for mobile phones and laptops from conceptualization to deployment, and spearheaded an ERP solution for repair-management operations.
- Oversaw third-party API integrations and contributed to SEO and growth initiatives supporting product visibility.
- Managed website content and CMS updates across SellnCash, Compare and Buy portals, ensuring accuracy and consistency of product and content information.
- Monitored website security and data-compliance practices for customer-facing platforms handling transactional and personal data.
- Used analytics tools (Google Analytics, Mixpanel) to track conversion funnels and user behavior, driving UX and conversion-rate improvements.

Business Analyst | Artech (Capgemini), Noida, India *Oct 2021 – May 2022*

IT services and consulting company

- Generated MIS reports and KPI dashboards for internal and client stakeholders to support data-driven product and operational decisions.
- Validated client-provided data across Wipro and Centene systems for accuracy and compliance.
- Gained hands-on exposure to SQL, Tableau, Power BI, Google Analytics and Mixpanel for usage-funnel analysis and data storytelling.

Data Analyst | Ocrolus East Private Limited, Noida, India *Apr 2020 – Sep 2020*

Document AI for faster, more accurate financial decisions

- Verified mortgage-related banking documents for accuracy and compliance; collected and analyzed financial data to support reporting needs.
- Led a small team reviewing client-submitted documents to ensure data quality and timely processing.

Operations Executive (Intern) | Elixir Softech Private Limited, Noida, India *Jun 2019 – Feb 2020*

IT services / software development · Key projects: Shopper360, iFlauntMe

- Reported operational and footfall data with visual insights (AI-based image capturing) to retail clients including Lenskart, Zivame, H&M, Campus and Fabindia.
- Conducted QA testing for Shopper360 and published product/technology content on iFlauntMe.

Tech Support Executive (Intern) | Source Dot Com Private Limited, Gurgaon, India *Apr 2018 – Jun 2019*

IT services and consulting company

- Resolved user queries and issued Emergency Information Report certificates; provided functional, technical and networking support.

KEY ACHIEVEMENTS

- Led end-to-end development of B2C and B2B platforms serving 100K+ users, driven by user research and iterative PRD-based delivery.
- Shipped a diagnostic app and an ERP repair-management system from concept to production, including full UAT cycles.
- Delivered 3+ high-impact web and app products on time and within scope by running disciplined sprint planning and backlog grooming.
- Improved delivery efficiency by streamlining Agile ceremonies and standardizing sprint/release processes.
